MAGIC SHOW

It's time for magic!

Dive into the world of magic, discover the secrets of magic and create your own little MAGIC SHOW. To make the illusion a perfect success, TikTok magician MARV lays his cards on the table and explains what is important in the total of 18 magic tricks. But what would a young magician be without a magic wand that he can make float or glow in the dark?

With our new Trend Edition, I would like to invite little and big magicians to take a look behind the scenes of a real magician. I'm looking forward to the many magical moments and to the fact that together we can put a smile on children's faces. Clear the stage!
